**EXAMINER'S AMENDMENT**

**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with Jasper Kwoh on 6/01/2006.
3. On Page 1 of the specification at Line 12, add the following:  
"application serial no. 60/-- **340,329** --, said application"

***Allowable Subject Matter***

4. The following is an examiner's statement of reasons for allowance:

Claims 1-16 are allowed.

In regards to the independent claims, the prior art of record fails to anticipate the combined elements/steps including, "if the editorial content item of the selected link comprises a video item, determining if a video-on-demand (VOD) software is installed on the client device, tuning the client device to a video-on-demand channel if the VOD software is installed, else retrieving the video item from an in-band channel if the client device lacks the VOD software", as recited in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The software installed on the client device determination step and retrieval from either a VOD channel or an in-band channel steps are clearly disclosed in Figure 4 and Page 14, Lines 9-23. The prior art of record fails to teach, in combination with the elements/steps in the claim, that if a determination is made that the client device's VOD software is not installed in response to the selection of a video item on an EPG, retrieving the video item from an in-band channel if the client device lacks the VOD software.
